

# 2008 IRPS SUBMISSION COVER PAGE

PLEASE FILL IN THE APPLICABLE HIGHLIGHTED AREAS

Paper Title: New Results in Semiconductor Reliability

Author's Names: Please type in the names, affiliations, addresses, phone/fax numbers, & email addresses of all authors here

## Primary Contact:

Name: Joe Author  
Address: Complete mailing address  
Town, State ZIP Country  
Telephone: 999-999-9999  
Fax: 999-999-9999  
Email: joeemail@server.com

## Secondary Contact:

Name: Sue Author  
Address: Complete mailing address  
Town, State ZIP Country  
Telephone: 999-999-9999  
Fax: 999-999-9999  
Email: sueemail@server.com

50 Word Abstract: Please type in a 50-word abstract of your paper here

Suggested Area: Please identify the area from the Call for Papers for which this paper is best suited (i.e. High-k gate dielectrics, dual gate devices, Low-k and Cu, NBTI, SOL, NVM, Product Reliability and Burn-in, Qualification Strategies, Circuits, Assembly and Packaging, Failure Analysis, MEMS, Device Dielectrics, Interconnects, Transistor, Foundry Reliability, Process Induced Damage, Device and Process, ESD and Latch-Up, etc.)

---

Please place an "X" in the boxes of your choice:

Submission Type:  Platform presentation preferred; or  Poster only

This year only a two page summary is allowed for committee review..

---

**Publicity Release:** As the contact submitting the above paper/poster submission, I understand that information from the submission including the graphics/figures may be used as part of the pre-symposium publicity by the IRPS Publicity Committee. IRPS may request publication artwork from me to enhance the promotion of my material. In addition I or one of my co-authors may be requested to meet with the press while attending IRPS.

An "X" in one of the boxes below signifies that I/we do not object to this arrangement or I/we do object to this arrangement. Please place an "X" in the appropriate box below.

**Do Not Object**

**Object**

# DESKTOP PUBLISHING TEMPLATE FOR 2008 IRPS — 8 ½" × 11" OR A4

IRPS Publishing Services  
SAR Associates  
301 N. Madison Street; Rome, NY 13440  
315-339-3968; fax: 315-336-9134; e-mail: [pub\\_services@irps.org](mailto:pub_services@irps.org)

## PURPOSE

This template is intended to provide an easy method for preparing a 2-page summary for review or a proceedings manuscript. Simply replace the words in this page and the next with your own, and your manuscript will be automatically correctly formatted for publication in the IRPS proceedings. [*Keywords*: Please select key words that can be used to research a particular topic of interest. These are utilized on the CDROM and in the IRPS Search and Retrieval Index available for sale at the Symposium. ]

## TRADITIONAL FORMAT & STYLE

IRPS uses the IEEE two column format similar to the IEEE instructions, "[Preparation of Papers in a Two Column Format for Conference Proceedings Sponsored by IEEE](#)." This style is preferred for IRPS due to its readability and flexibility. It is preferred that your manuscript be submitted electronically using this exact template set up for 8½" × 11" sheets (use one side only) but it is also possible to submit a manuscript with this template set up for A4 sheets (210 mm × 297 mm). There are different margins requirements for A4 than for 8½" × 11" to keep the column widths and heights equal.

### *Figures and Photos*

For clarity and readability, it is desirable to keep figures or photos clean and simple. Generally, the figures or photos included in the paper are the same as those used during the visual presentation at the conference. They should be **black and white (grayscale)** and referenced in the text of the paper. They should have a short caption directly underneath with a concise explanation of the figure or photo.

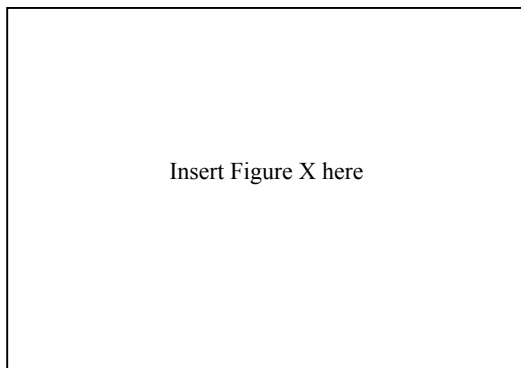

FIGURE 1. INSERT CONCISE EXPLANATION OF FIGURE X HERE. KEEP THIS FIGURE CLOSE TO THE REFERENCE IN THE TEXT OF THE MANUSCRIPT.

### *Color for CDROM File*

The electronic file for the printed version must be black & white with grayscale for photographs. However, a separate file containing color for graphs and photographs is acceptable for the CDROM version.

### *Margins*

*A1 (8½" × 11")*: On 8½" × 11", the top & bottom margins should be 0.69" and left & right margins should be 0.67" (4 pica) with .19" between columns. Column widths will then be 3.48".

*A4*: On 210 mm × 297 mm (8.27" × 11.69"), A4, size paper, the top & bottom margins shall be 2.64 cm (1.04") and left & right margins shall be 1.42 cm (0.56") with .48 cm (.19") between columns. Column widths will then be 8.84 cm (3.48").

**Misc.:** Do not use gutter margins since your paper may begin on the right or the left. Page numbers and headers, if any, will be added by the publication consultant.

### *Character and Paragraph Formats*

The text font should be proportional space 9 pt Times Roman (or equivalent) at 10.5 pt leading (line spacing) with 0.167 (1 pica) first line indent, justification, and hyphenation. Paper titles should be 16 pt. Times Roman (or equivalent). Name(s), affiliation(s), and address(es) should appear centered below the title in 9 pt Times Roman (or equivalent).

**Avoid using underlining, use italics or bold instead.**

### *Headings*

*Main Headings*: Main headings (such as PURPOSE and FORMAT & STYLE of this instruction) should be in all capitals (use small capitals if available), 12 pt, and centered with 10 pt before and 10 pt after.

*Subheadings*: Any sub-headings in upper-lower case will be 10 pt italics aligned left with 10 pt before and after.

*Sub-subheading*: Any sub-subheadings will be indented, 9 pt italics, and run in at the beginning of the paragraph.

## REFERENCES

List and number all bibliographical references at the end of the paper using REFERENCES as a main heading. When referring to a particular reference in the text, type the corresponding reference number in square brackets in the form as shown at the end of this sentence. [1]

- [1] A. B. Author, *Title of Book*. New York: IEEE Press, 1983, ch. 6, pp. 23-35.

- [2] G. H. Author, "Title of Paper," in *Proceedings of the Conference...*, 1983, pp. 10-20.

## APPENDIX

### *Units of Measure*

*Points:* Points refer to 72 points per inch so that 12 pt is one sixth of an inch.

*Pica:* Pica is one sixth of an inch or six pica equals one inch.

### *Page limit*

There is no page limit for platform presentation papers. The average IRPS paper is six to seven pages long. Poster presentation papers are limited to two pages, which may contain text and figures.

TABLE 1. STYLE SUMMARY. NOTE: CAPTION IS ABOVE THE TABLE

Title	16 pt centered
Type face	Times New Roman or equivalent
Main heading	12 pt centered, small caps or all caps, 10 pt before/after
Normal paragraph	9 pt, 0.167" (1 pica) first line indent, 10.5 pt line spacing
Subheading	10 pt italics, upper-lower case aligned left, 10 pt before/after
Margins (A1 – letter) 8½" × 11"	0.67" left & right 0.69" top & bottom, 0.19" between columns
Margins (A4 ) 210 mm × 297 mm (8.27" × 11.69")	1.42 cm (0.56") left & right 2.64 cm (1.04") top & bottom, 0.48 cm (0.19") between columns
